

The 2021-2022 Wisconsin Union Directorate will...

Prioritize transparency and honesty in everything we do, including our communication and engagement with our commitments to conversations around accessibility and amplifying underrepresented perspectives and topics of importance. To achieve this, we endeavor to hold each other accountable to our goal and will engage in regular self education and create opportunities to empower our membership and the community to do the same.

We promise to be diligent in our pursuit of these ends.

Further...

As prominent student leaders with unique campus positionality, we commit to engaging in discussions around difficult topics to normalize such conversations and educate ourselves. In addition to these discussions, we will commit to collaborating with underrepresented voices on campus, participating in the creation of programming surrounding these difficult topics with help from the marginalized communities, and strengthening our relationships with student leaders around campus.
